Emergency Critical Care Veterinarian needed for ultra-modern, busy 24/7/365 facility located in beautiful north coastal Florida, near Daytona Beach. We would prefer a candidate with at least one year in an emergency hospital setting, however, we will consider others including new or recent graduates. Your DVM license must be in good standing. You must maintain a professional demeanor and appearance, maintain the highest standards in providing compassionate, high quality health care and services. We are looking for someone who is positive and can maintain good relationships and communications with staff and clients.

We offer a quality, modern, well equipped facility to practice. This includes a fully equipped ICU, surgical suite, endoscopy suite, ultrasound, digital radiography and full in-house laboratory. We provide a competitive salary and a benefits package that includes health insurance, continuing education, professional liability coverage, required professional dues and licensing, uniforms, personal pet care discounts and much more.

We are an established critical care, emergency facility in beautiful, sunny northern coastal Florida. We are very close to all the major attractions, Daytona International Speedway, beautiful beaches, springs, rivers, parks, golf resorts and many other beautiful recreational facilities. We have great schools, universities and numerous beautiful housing communities. Real estate opportunities are still a bargain in Florida. This is great place to raise a family!

We have experienced significant growth continuously the past few years. We are looking for someone that is looking for a long term opportunity to join a great team with a great staff at a fantastic facility!

Please submit your CV for consideration to nmacginnis@animalervolusia.com. Thank you.
