

Emergency Doctors Wanted

Red Bank Veterinary Hospital is hiring for their Emergency Departments. We are seeking full-time, internship-trained or equivalently experienced emergency clinicians to work day, swing, and overnight shifts at our 24 hour/7day a week emergency, critical care and referral facilities located in Tinton Falls, Hillsborough and Linwood, New Jersey.

Our hospitals are equipped with multi-parameter monitors that provide continuous ECG, pulse oximetry, capnography, and blood pressure. We also have in-house laboratories that perform CBCs through coags to cross-matching. Each location is equipped with defibrillators, ultrasonography and full pharmacies. In addition, we have all imaging modalities including digital radiology, ultrasound and endoscopy at all hospitals with access to fluoroscopy, CT, and MRI at the Tinton Falls location.

On-staff specialties include acupuncture, anesthesiology & pain management, avian and exotics, behavior, cardiology, clinical nutrition, dentistry & oral surgery, dermatology & allergy, internal medicine, interventional radiology, neurology & neurosurgery, oncology (medical & radiation and integrative), ophthalmology, physical rehabilitation, radiology, sports medicine, and surgery. We also provide an in-network, complimentary patient transport service to ensure access to all specialties and services. Grand rounds are conducted every morning allowing each patient to benefit from the experience and expertise of our entire staff. We are actively involved in teaching through our internship and residency programs.

Benefits

We offer an exceptionally generous compensation package. For more information, please contact Dr. Laura Buscher

About Compassion-First

Founded in September 2014, Compassion-First Pet Hospitals is revolutionizing how hospitals connect with one another. Seen as a group practice rather than a corporate practice, Compassion-First is a collaborative family of hospitals that retain their equity, uniqueness, integrity and medical decisions. At Compassion-First, hospitals gain the benefit of working together, maximizing their resources, and are united by a common passion to put pet owners and their pets at the center of care.
