

Veterinarians needed (*ad updated*) for AAHA certified small animal hospital in NE Ohio, (Salem).

We have recently up-dated this ad, so if you have read it before, please read again as things have changed! We are looking for both Full-Time **and** Part-Time general practice veterinarians for a growing, long established and very busy small animal practice. We are **also** looking to hire one Full-time **and** one Part-time ER veterinarian to work a second shift that goes out to midnight.

If you are looking for a practice that provides excellent medicine, where progressive medicine means something, provides you the tools to diagnose and treat your patients, allows you to enjoy your life after work, be in the country but able to drive to the city within an hour, and most of all have fun and enjoy your job, then you'll want to work here. We want our staff to have a good quality of life and our patients to receive excellent medical care. The staff are fun loving and experienced allowing doctors to leverage their time.

We are a full-service hospital that serves a large client base with services that include Wellness, Sick, Surgery, Urgent care, Critical care, and Intensive care. We believe in using available technology to provide the best medicine possible. We are a progressive hybrid practice, and try to provide human quality medicine for our patients while tailoring it to the client's needs and income. Our Motto is the needs of the patient come first. Our clients come to us because of our reputation for excellence and compassionate care. We have an experienced and friendly staff. We have a large in-house lab, ultrasound, dental machines, digital x-ray machine, 2 large surgery suites, isolation room, large treatment area, with 3 ICU units and critical care cages, with facility to house up to 34 patients (no boarding).

With Mentoring and additional training for new grads, candidate will be able to manage small animal preventative care, surgery cases, internal medicine cases and daytime emergency cases. Surgery and emergency skills are taught or mentored. Applicants must be able to interpret in-house labs, eventually run labs themselves such as chemistries, CBC, Coag panels, fecals, urinalysis, etc., place IV catheters, administer IV fluids, administer oral, IV, IM and SQ medications, evaluate radiographs and ultrasound, administer anesthesia, place endotracheal tubes, perform surgery, calculate proper anesthesia dosages, supervise dental prophylaxis on dogs and cats, perform extraction of diseased teeth when needed, complete medical records and assignment of treatment protocols, be able to discuss disease and medication with clients. Individuals should have strong teamwork and communication skills; be able to work in a fast pace work environment; can provide staff with written and verbal directions, able to multi-task and use any computer, be able to stand, walk, kneel, stoop, maneuver for long durations of time; and able to lift and carry 30lbs. We maintain a flexible schedule so all get their days off and paid time off. We are closed 7 holidays a year until we get our after hour ER started.

\$80,000 - \$85,000 annual salary for general practitioner and \$85,000 - \$90,000 for ER veterinarians with \$5000.00 sign on bonus/relocation fee for each. Salary is based on a Pro-Sal system and base salary is determined by experience. Excellent benefits including paid time off, paid CE, licensing fees, copay on health insurance, liability/malpractice insurance 100% paid, and more. We are open 7 days a week and to balance work and life the average work week is 40 – 45 hours/week (all positions). General Practice veterinarians work every 3rd weekend, ER doctors work a 9 - 10 hour shift and receive two days off in a row during the week.

Please contact Ross grad Dr. Vickey Brooks at dr_brooks@hotmail.com or drbrooks@catapuss-vet.com, W: 330-332-1880 or after 6pm C: 330-429-0952, F: (330) 332-2255.
