**EXPERIENCE  
100% DEDICATION  
TO VETERINARY  
MEDICINE.**

## At Ross University School of Veterinary Medicine, we create great veterinary minds:

Those who become leaders of the practice worldwide, who advance One Health through research and innovation, who contribute diverse perspectives that impact the profession and the communities we serve.

“Ross Vet is beyond ordinary. It’s your opportunity to live and study in an environment that pushes you to think and see things differently. You’ll develop island friends that become family. Accessible professors who will work with you and help you be successful in your education and your career. There’s truly no other place like it.”

**DEAN SEAN CALLANAN**

## THE ROSS VET DIFFERENCE.

### CULTURAL ENRICHMENT, INNOVATIVE ENVIRONMENT

Technologically equipped classrooms and facilities, supportive instructors, a dynamic curriculum, and students from around the world come together on the culturally distinct island of St. Kitts to create our extraordinary academic environment.

### IMMERSE YOURSELF IN LEARNING

Our immersive education provides you with opportunities to work with animals from the beginning, providing you with the essential knowledge, skills, technical expertise, and attitudes of a DVM.

### COMMUNITY OF SUPPORT

Volunteer with the local community, join a club, or solve real-world challenges through research using a One Health approach.

# ANIMAL LOVER TO EXTRAORDINARY VETERINARIAN.

## DISCOVER ROSS VET.

Founded in 1980, Ross Vet brings together our core Doctor of Veterinary Medicine (DVM) program and four graduate health profession and research programs, educating our students to become successful contributors to the knowledge economy through advanced training in areas strategically important to One Health.

Our students are prepared for their careers through our simulation and skills labs and a wide variety of clinical opportunities at AVMA-accredited affiliates across

the U.S., Canada, and abroad. Ross Vet's students enjoy an engaged, supportive community with peers who share their academic interests and goals, and faculty who are committed to their individual success.

The best way to prepare for a future in veterinary medicine and global health is to learn in an inclusive community that's actively improving and shaping what's next in the field. We celebrate your diversity and values, which echo our mission and inspire our ongoing work to better reflect the communities you will serve.

“Ross was the absolute best thing I have ever done with my entire life. Ross gave me every opportunity to be who I am..”

**LYNLEE STEVEY-RINDENOW, DVM '20**

# PASSION FOR PUTTING STUDENTS FIRST.

At Ross Vet, our professors' doors are always open to you, because they want you to become the best veterinarian you can be.

Our world-renowned faculty share a passion for teaching, research, and educating the veterinarians of tomorrow. Our attentive faculty members treat you like partners in a close-knit community that shares your animal curiosity.

“The number of hands-on labs and workshops that we took at Ross Vet in the classroom and through clubs and other activities gave us better confidence in our skill set, better communication skills with clients and colleagues, and the ability to problem-solve and diagnose conditions. These three skills, I believe, are the backbone of being an amazing veterinarian, and the more experienced and comfortable you are with these skills, the more successful in practice you will be.”

**HEATHER FARMER, DVM '06**

# GLOBAL DISCOVERY, FRONT AND CENTER.

Every day, our researchers are forging paths in the lab to solve real-world challenges.

We are leading through evidence-based science, innovation, and collaborative research across the healthcare ecosystem using a One Health transdisciplinary approach — ambitious projects that could change the face of global medicine, for animals and humans alike.

## OUR CENTERS

**The One Health Center for Zoonoses and Tropical Veterinary Medicine** focuses on one of the most significant public health threats facing tropical and developing countries: the transmission of disease from livestock and other domesticated animals to humans.

**The Center for Integrative Mammalian Research** offers research programs in the areas of animal models of disease, immune regulation, reproduction, and pain management.

**The Center for Conservation Medicine and Ecosystem Health** investigates the complex relationship between altered environments and infectious disease among wildlife, with special emphasis on protecting threatened and endangered species and developing management strategies for introduced flora and fauna.

**The Center for Research and Innovation in Veterinary and Medical Education** provides a home for researchers working to promote evidence-based innovations for teachers in both veterinary and medical education.

## RESEARCH BY THE NUMBERS.

**950+**

More than 950+ research and scientific papers have been published between 2014 and 2023.

**150+**

More than 150 students participate in research projects each year.

**\$1.5 M**

Ross Vet faculty members have participated in research projects totaling more than \$1.5 million from grant-awarding bodies, industry, corporations, and governments between 2014 and 2023.

# AN ISLAND RICH WITH OPPORTUNITIES.

The Ross Vet campus is located on the island of St. Kitts in the West Indies, approximately 220 miles southeast of San Juan, Puerto Rico. Here in this unique tropical environment, students have the opportunity for an educational and cultural experience all at the same time.

Ross Vet can help ignite your passion for veterinary medicine by challenging you to engage in something a little different. Step outside of the familiar and into a whole new world of possibilities.

**50,000+**  
ISLAND POPULATION

THE NATIONAL BIRD  
OF ST. KITTS AND NEVIS IS THE  
**BROWN PELICAN**  
(PELECANUS OCCIDENTALIS)

**ROSSIES**  
IS HOW WE REFER TO OUR  
VETERINARY STUDENTS

**KITTITIANS**  
IS THE NAME ISLANDERS  
CALL THEMSELVES

# LEAVE YOUR WORLD AND ENTER OURS.

## ST. KITTS AT A GLANCE

**PRIMARY LANGUAGE SPOKEN:** English

**CURRENCY:** Eastern Caribbean (EC) dollars

**LOCAL TRAVEL:** Taxi service, small buses, vans, and student shuttle. Many students also purchase cars on the island.

**GOVERNMENT:** St. Kitts and the neighboring island of Nevis make up the Federation of St. Christopher and Nevis, an English-speaking member of the British Commonwealth nations.

**COMMUNICATION:** Cable television, telephone, and wireless networks

**ECONOMY:** Primarily tourism, supplemented by agriculture

## ISLAND LIFE

Life at Ross Vet offers a tropical climate, with 77°F average temperatures in the cooler months and 82°F average temperatures and rain and humidity in the warmer months. It's perfect for those who want to relax by the beach, go sailing, hike, or attend exciting outdoor festivals.

## STEEPED IN HISTORY

St. Kitts' recorded history began after Christopher Columbus sailed past the island in 1493, followed by the first non-Spanish European colony settlement in 1624. Early inhabitants referred to their island as Liamuiga, or "fertile land," due to St. Kitts' rich volcanic soil. Today, the 3,792-foot extinct volcano that goes by the name Mt. Liamuiga towers above the island's lush rainforests — a perfect geological landmark for tourists, students, and residents to climb.

## EXPERIENCE ROSS VET.

Ross Vet is more than just classrooms and labs. When you step onto campus, you are surrounded by majestic ocean views, fields of animals, and an energetic buzz from the students and colleagues who share your passion.

- Weekly farmers market with fresh, local produce
- 7+ restaurants in the heart of campus (including vegan!)
- Campus fitness center with cardio equipment and weights
- Student Union and dedicated study spaces
- Guest lectures, campus fairs, and events
- Counseling Center and Student Success Center

### JOIN THE CLUB

Learning doesn't end in the classroom. More than 25 student clubs and organizations provide opportunities to get lost in what you love. Network with a community that shares your animal curiosity while enriching your education beyond the classroom.

### GET LOST IN WHAT YOU LOVE!

VIEW ALL OF OUR CLUBS AT [VETERINARY.ROSSU.EDU/STUDENT-CLUBS](http://VETERINARY.ROSSU.EDU/STUDENT-CLUBS)

“It is such a unique experience living on the island and [dealing with] the stress of school, but looking back, it was one of the best times of my life. Value the experiences and the friendships you will develop. Sometimes these are just as important as what you learn in the classroom.”

AMANDA FISER, DVM '09

## ROSS VET BY THE NUMBERS.

**3.2**

Average prerequisite GPA<sup>1</sup>

**301**

# LIVE WHERE YOU LEARN.

## CAMPUS LIVING WHERE EVERYONE IS DEDICATED TO VETERINARY MEDICINE.

Located on the east side of campus by the Caribbean Sea, the university's Campus Living Residences house approximately 140 students. As a new incoming student, you may live on campus for your first semester. After your first semester, you'll move to off-campus housing.

The residence hall names represent the island's history:

### TEGREMAN HALL

Chief Tegreman, 1600s; early inhabitant and leader of the Kalinago

### COLUMBUS HALL

Christopher Columbus, 1451 – 1506; Spanish explorer

### DOUGLAS HALL

Betto Douglas, 1774 – 18--; enslaved person who became a symbol of emancipation

### WOODS HALL

Marcus of the Woods, early to mid-1800s; enslaved person who fought for freedom

### CLEGHORN HALL

Ralph Cleghorn, 1805 – 1842; Kittitian rights activist

## ON CAMPUS OR OFF?

EXPLORE YOUR HOUSING OPTIONS AT  
[VETERINARY.ROSSU.EDU/HOUSING](http://VETERINARY.ROSSU.EDU/HOUSING)

## STUDENT SUCCESS.

### STUDENT SUCCESS CENTER

The Student Success Center (SSC) offers high-quality academic support programs and services to help you succeed as a student. The SSC's complimentary services are available throughout your time with Ross Vet and include individual study-strategy appointments, interactive learning workshops, academic coaching, and more.

### COUNSELING CENTER

Our goal is to assist Ross Vet students who may be experiencing academic, personal, or other difficulties. Confidential services include individual and group counseling for personal, relationship, or academic concerns. Available in person and virtually, the team supports your mental well-being, and nurtures your success in a safe, welcoming, and multicultural environment.

Your health and well-being are important to us. Ross Vet's Thrive wellness program offers wellness activities such as hikes, swims, cooking classes, and more for the entire community.

# GET LOST IN WHAT YOU LOVE.

With its windswept beaches, unspoiled natural splendor, and temperatures averaging 80°F year-round, the island can spark your passion for adventure outside of the classroom — and there's plenty to choose from.

## **BRIMSTONE HILL FORTRESS**

This national park (a UNESCO World Heritage Site) sits atop a hill nearly 800 feet high, and was man-made from hard volcanic rock beginning in the 17th century. It is a preserved historical fortification of cultural and architectural significance, and a “must-see” site for tourists and residents alike.

## **ZIP LINE TOURS**

For a real sense of island adventure, you can zip line above the St. Kitts rainforest, with a view of neighboring islands and historical sites, via Sky Safari Tours.

## **ST. KITTS SCENIC RAILWAY**

This railway, also called “The Last Railway in the West Indies,” takes passengers on a three-hour tour around the island. Originally built in the early 1900s to transport sugarcane from plantations to Basseterre, this railway now gives visitors a chance to experience views of the ocean, cliffs, small villages, farms, rainforests, and sugarcane fields, with Mt. Liamuiga’s volcanic cone in the distance.

## **NEVIS HOT SPRINGS**

For centuries, visitors have enjoyed the hot volcanic springs at Bath Village to treat various aches and pains. Nearby is the Bath Hotel, built in 1778 and the first luxury hotel in the West Indies.

# WE TURN AMBITIOUS STUDENTS INTO VETERINARY LEADERS.

Ross University School of Veterinary Medicine's DVM program is your gateway to new worlds, species, and connections. From day one, our AVMA COE-accredited<sup>1</sup> program will provide you with the essential knowledge, skills, technical expertise, perspectives of a DVM. Our curriculum integrates basic sciences and clinicals and engages you in active learning and immersive experiences.

Our unique location and culturally distinct campus on the island of St. Kitts allows you to get up close and personal with domestic, native, terrestrial, and aquatic animals, and provides opportunities for agricultural, equine, and wildlife/ecosystem connections.

## CLINICAL AND COMMUNICATION SKILLS LABS

Our immersive education provides you with opportunities to work with animals from the beginning — labs are where practice makes perfect.

- Hands-on basic skills such as bandaging and physical examinations using models
- Simulated veterinary training, from basic suturing to intubation and spaying
- Role play in a realistic training environment that imitates actual client-patient interactions
- Practicing your verbal and non-verbal cues and receiving coaching in a safe environment.

## RESEARCH OPPORTUNITIES

You can be part of research that affects animal and human health on a global scale. We nurture academic exchange, where you will have access to distinguished faculty and research projects that aim to solve real-world problems.

### EXPLORE:

- Zoonotic diseases
- Conservation medicine
- Ecosystem health
- Endangered marine life and aquatic conservation
- Innovations in veterinary medicine

<sup>1</sup>Ross University School of Veterinary Medicine confers a Doctor of Veterinary Medicine (DVM) degree, which is accredited by the American Veterinary Medical Association Council on Education (AVMA COE), 1931 N. Meacham Road, Suite 100, Schaumburg, IL 60173, 1-800-248-2862. For more information, please visit [www.avma.org/education/accreditation-veterinary-colleges](http://www.avma.org/education/accreditation-veterinary-colleges). The AVMA COE uses defined standards to evaluate veterinary medical education programs, including facilities, clinical resources, curriculum, faculty, student outcomes, and research programs. The standards are interpreted and applied by the AVMA COE-accredited veterinary medical education programs in relation to its mission.

### **RUVC ANIMAL CLINIC**

Ross University Veterinary Clinic (RUVC) is an AAHA-accredited<sup>2</sup> clinic in St. Kitts that offers our students a chance to master clinical skills and become involved in animal care in a real-life setting. Our clinic provides a wide range of medical and surgical services for small animals owned by local residents, such as preventive care, dental care, spay and neuter, and emergency care.

### **DUAL DEGREE PROGRAM**

We're committed to how the world is changing and its impact on animals, humans, and the environment. Work alongside faculty through one of our research centers to earn your MSc by Research degree, which can be combined with our DVM degree through the Dual Degree option.

<sup>2</sup>Ross University School of Veterinary Medicine's (RUSVM) Veterinary Clinic is accredited by the American Animal Hospital Association (AAHA, [www.aaaha.org](http://www.aaaha.org)). The clinic provides a range of medical and surgical services for small animals, including preventive care and emergency medicine. RUSVM's initial accreditation was granted in July 2010.

## PRECLINICAL CURRICULUM.

At our technologically equipped campus in St. Kitts, you will be challenged by our seven-semester accelerated preclinical curriculum that integrates unique research opportunities, classroom study, and hands-on clinical experience, preparing you for your final year of clinical training at one of Ross Vet's affiliated veterinary schools.

### DOCTOR OF VETERINARY MEDICINE: ACCELERATING YOU TOWARD YOUR FUTURE

You likely spent four years or more completing your undergraduate degree. At Ross Vet, you can earn your DVM in three years and four months with our accelerated curriculum and be eligible to apply for licensure<sup>1</sup>.

Yes, that means less downtime between semesters, but it also means you could be practice, and career-ready sooner.

Our Apple® Distinguished School recognition highlights our success in using technology to inspire creativity, collaboration, and critical thinking throughout our broad-based curriculum. Our world-renowned faculty share a passion for teaching, research, and educating the veterinarians of tomorrow.

At Ross Vet, the world is your classroom.

<sup>1</sup>Students must successfully pass all courses prescribed in the Ross Vet preclinical and clinical curriculum without failing or repeating any courses, and pass the North American Veterinary Licensing Examination (NAVLE) to complete their degree within this time frame. For more information, visit [veterinary.rossu.edu/student-consumer-information](http://veterinary.rossu.edu/student-consumer-information).

## LEARNING, THE PAWPAD WAY

What if you could learn the bone anatomy of a bovine, train yourself to recognize feline illnesses, and learn equine anesthesia administration — all on an iPad®?

You can, with the PAWPad: a comprehensive, interactive education platform loaded with campus resources and game-based learning apps that simulate real-life scenarios. The PAWPad is integrated with the DVM curriculum, and it's designed to fit the way you learn — dynamically, visually, socially, and actively engaged both inside and outside the traditional classroom.

You were the inspiration for the PAWPad. That's why we partnered with industry leaders Apple®, Cisco®, and LGN to bring you a platform that integrates classroom curricula and expert instruction with the highly interactive features of digital media — so you have the tools you need to steer toward the future.

## ROSS APPROVALS AND ACCREDITATIONS

- Ross University School of Veterinary Medicine confers a Doctor of Veterinary Medicine (DVM) degree, which is accredited by the American Veterinary Medical Association Council on Education (AVMA COE), 1931 N. Meacham Road, Suite 100, Schaumburg, IL 60173, 1-800-248-2862. For more information, please visit [www.avma.org/education/accreditation-veterinary-colleges](http://www.avma.org/education/accreditation-veterinary-colleges).

The AVMA COE uses defined standards to evaluate veterinary medical education programs, including facilities, clinical resources, curriculum, faculty, student outcomes, and research programs. The standards are interpreted and applied by the AVMA COE-accredited veterinary medical education programs in relation to its mission.

- Ross University School of Veterinary Medicine's Clinic (RUVC) is accredited by the American Animal Hospital Association (AAHA).
- Ross University School of Veterinary Medicine is accredited by the St. Christopher & Nevis Accreditation Board, Ministry of Education to confer the degree of Doctor of Veterinary Medicine on its students who successfully complete the course of study. The graduate program is also accredited and offers Master of Science (MSc) and Doctoral (PhD) degrees in all research areas supported by Ross.

## YOUR CLINICAL YEAR EXPERIENCE.

Your clinical year consists of three semesters at an AVMA-accredited school of veterinary medicine in the United States, Canada, or abroad affiliated with Ross Vet.

Clinical rotations are the part of vet school when you begin to make the transition from student to doctor. During your rotations, you see patients and start

learning procedures. You work side by side with a licensed clinician to examine, diagnose, and treat patients. The pace of work speeds up and includes large caseloads, patient emergencies, and weekends and nights working on-call. It may be the busiest, most intense period of your vet school experience.

**25** AFFILIATED AVMA-ACCREDITED NORTH AMERICAN VETERINARY SCHOOLS

**5** AFFILIATED AVMA-ACCREDITED INTERNATIONAL VETERINARY SCHOOLS

DISCOVER CLINICAL OPTIONS [VETERINARY.ROSSU.EDU/CLINICAL](https://veterinary.rossu.edu/clinical)

## IMPROVE HEALTH THROUGH SCIENTIFIC DISCOVERY.

Today's questions can become tomorrow's answers.

You can be part of research that affects animal and human health on a global scale. We nurture academic exchange, where you will have access to faculty and research projects that aim to solve real-world problems.

Ross Vet prepares students for careers at the heart of research. Develop transferable research skills necessary to pursue a wide selection of opportunities in academia, industry, business, or elsewhere.

“The educational and research opportunities afforded based on a One Health approach, equip our students to be part of future leadership contributing to devising integrative, adaptive, holistic, and forward-looking strategies to solve current and future challenges related to human, animal, and ecosystem health.”

**SAMSON MUKARATIRWA, DVM, MVSC, PHD**  
ASSOCIATE DEAN OF RESEARCH

# DUAL DEGREE.

If this is your passion, go all in! Your veterinary education shouldn't have limits. In addition to the DVM program, you can also take advantage of earning a research degree at the same time.

## DUAL DEGREE: DVM/MSc BY RESEARCH

Ross Vet's Dual Degree options provide students the opportunity to develop their research experience and interests while building on other research activities that are part of the DVM curriculum. The core requirement for the Master's by Research degree is the completion of a substantial research project that is written up as a thesis.

### INTERCALATED OPTION (13 SEMESTERS)

#### 13-SEMESTER PROGRAM

As a student, you will:

- Undertake a project specific to one of our four research centers, working with our research-active community, while supervised by faculty members.
- Have the opportunity to fully immerse yourself in research for three semesters, including training and preparation for your project.

### INTEGRATED OPTION (11 SEMESTERS)

#### INTENSIVE 11-SEMESTER PROGRAM

This provides our DVM students the same opportunity as our intercalated MSc by Research degree program, with an accelerated curriculum. In addition to your DVM studies, as a student researcher, you will:

- Focus on a topic specific to one of our four research centers, working alongside research-active staff and students while supervised by faculty members.
- Receive research training and preparation for your research project, which is fully integrated in semesters 1–3 prior to dedicating a full semester to the conduct of research.
- Complete data analysis and thesis preparation, which will take place in the last four semesters, in addition to DVM requirements.

# STEPS TO APPLY.

You're more than just a number to us. We take a holistic view of the admissions process, reviewing not just grades and GRE scores, but so much more — your experience with animals and exposure to animal medicine, personal character, interpersonal skills, motivation, and passion for the profession.

## YOUR DVM APPLICATION CHECKLIST

- Be sure you're on track to finishing your prerequisites; you can apply with up to two pending courses.
- Prepare your personal essay.
- Request your letters of recommendation.
- Apply through our online application for all upcoming semesters. If you apply through VMCAS, be sure to mark Ross Vet as one of your programs of choice.
- Upload your supporting documents in the My Ross Vet community portal at [vetcommunity.rossu.edu](http://vetcommunity.rossu.edu).

## DEMOGRAPHIC STATS

Percentage of enrolled full-time students by gender:

Less than 1% did not answer.

Percentage of enrolled full-time students by race:

Based on enrollment data for the 2021–2022 academic year. Percentages for individual categories are rounded to the nearest full percent.

## FINANCE YOUR EDUCATION.<sup>1</sup>

**Don't let the process of financing a veterinary education stand in the way of your opportunity of a lifetime.**

Ross Vet partners with you. Our knowledgeable team can help you navigate the forms, terminology, numbers, and deadlines — offering you the financial tools and tips you need to make informed decisions. Together, we can help you fund your future.

“There are so many different opportunities to get hands-on experience in all different fields of vet med, not only on campus but within the community through clubs right from your first semester. Even if you are mainly a small-animal person, large-animal clubs will welcome you with open arms and are happy to teach you about their fields.”

**MORGAN GRAHAM, DVM '23**

“The Rossie experience really helped me come out of my comfort zone and grow as a person. Being fully immersed in a culture and lifestyle unfamiliar with my own helped me grow patience, understanding, empathy, and compassion for all animals and humankind. It gave me the space to think outside the box and problem-solve in ways that I use every day. It also has provided a grounding in my life that helps me advocate for diverse backgrounds, not just the four-legged kind.”

**ERIN BURTON, DVM '12**

“My Rossie experience opened my ideas to the vast possibilities within veterinary medicine and showed me the opportunity that lies outside of my normal ‘bubble’ in my home state. It helped me become a leader within my company, but has also allowed me to become the president of the Texas Veterinary Medical Foundation and give back to my profession.”

**CHAD HARRIS, DVM '12**

**Ross University School of Veterinary Medicine's vision is to lead veterinary training worldwide by creating an exemplary veterinary program, uniquely designed to graduate today's practice-ready veterinarians and tomorrow's leaders and discoverers.**
