Ross University School of Veterinary Medicine Graduate Employment Outcome Disclosures
As of 2/9/2021

The information below describes the placement rates and other employment outcomes that Ross University School of Veterinary Medicine (RUSVM) has reported in the last 12 months to fulfill any state or accreditor requirements, including the methodology, timeframes and sources of information associated with the figures. Please note that the relevant definitions, methodologies and timeframes vary by state/accreditor.

American Veterinary Medical Association-Council on Education (AVMA-COE)
Ross University School of Veterinary Medicine is required to report employment data to AVMA-COE. RUSVM does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data. Employment outcomes were reported as described below.

DATA SOURCE
Information was gathered through the 2020 Survey of Graduating Veterinary Students administered by AVMA and provided to RUSVM. RUSVM neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS
Employment outcomes were reported to AVMA-COE in December 2020. Data was collected on RUSVM students graduating between 6/1/2019 and 5/31/2020. Two primary statistics were included. The percent of graduates receiving an offer of employment was based on a denominator of survey respondents indicating they were seeking employment or advanced education in the veterinary field. The numerator of the rate was the number of students reporting they received such an offer. The percent of graduates accepting an offer was based on a denominator of survey respondents reporting they received an offer for employment or advanced education in the veterinary field. The numerator of the rate was the number of students reporting they accepted such an offer. “New Employment” is defined as employment obtained no earlier than 6 months prior to graduation. “Existing employment” is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.
