

ANIMAL PROTOCOL REVIEW

Form 6. Potential for pain /distress/discomfort, more than momentary

Institutional Animal Care and Use Committee, Ross University, School of Veterinary Medicine

In detail, describe the source of potential pain, distress, and/or discomfort and provide a narrative description of the methods and sources that were used in consideration of alternatives to procedures that may cause more than momentary or slight pain or distress to the animals. Describe the methods to be used to minimize the pain, distress or discomfort, who will monitor the animal and how often the monitoring will be done:

Will pain/distress/discomfort relief be withheld for any period of time? YES NO

Will the animals experience chronic unrelieved pain/distress/discomfort ? YES NO

If YES to either, specify the amount of time this will occur, the clinical criteria for euthanasia of the animals (due to unrelieved pain), who will assess the animals, and how often the assessments will be done. In addition, justify the reason for not providing relieve:
