

KNOW BEFORE YOU GO FACT SHEET

WHAT WILL I LEARN AND EXPERIENCE IN MY STUDIES?

The Master of Science by Research degree program is based on supervised research over a period of one year full-time (3 semesters) or a maximum of 24 months part-time (6 semesters). Progress monitoring is conducted throughout the study period and the student will be asked to demonstrate satisfactory progress at set milestones.

The award of a Master of Science by Research degree is based on the satisfactory completion of research training in addition to any other designated projects and/or assignments and/or course work, and the completion of a thesis, which must not exceed 30,000 words. Candidates will be required to demonstrate that they have acquired an advanced level of knowledge and understanding in the field of study and are capable of undertaking independent research.

For more information about the Ross University School of Veterinary Medicine Master of Science by Research degree program, see: <https://veterinary.rossu.edu/postgraduate/msc-research.html>

WHAT SERVICES WILL I RECEIVE?

Services available to all students include:

- Assistance with student visa application, accommodation, private study area and island orientation to students locating to St. Kitts.
- All students have access to Health and wellness services available through the Student Health Services Office and Counseling Center, including online/telephone support services.
- Academic support through an appointed Lead Supervisor and Progress Monitoring Committee, and access to resources provided by the Student Success Center.

PROGRAM COSTS AND FINANCING OPTIONS
