We will then send you an award letter with loan instructions approximately two months prior to the semester start.

ELECTRONIC BOOKS
Ross University School of Veterinary Medicine uses electronic books (ebooks) for all of their semesters in basic sciences. Students are charged for the cost of their ebooks within the semester tuition. RUSVM has developed relationships with the publishers and receives the ebooks at a discounted cost and is thus able to pass a savings onto students. Students are given the ability to opt out of the ebooks by logging onto the myRoss website and completing the Opt Out form. Students who opt out will need to independently purchase the complete list of all required books. Students will only be able to opt out during a two week period, the week prior to the start of classes and during the first week of classes. After the Opt Out form is received by the Office of Student Accounts, it will be reviewed and a credit will be issued to the student’s account. The credit will be the total cost of the books offered for the semester the student is registered. All students will have the option to opt out each semester.

Books are required and essential for learning the material needed for basic sciences. A faculty member may request to review that a student has purchased all required materials.
VETERINARY SCHOOL HEALTH INSURANCE

RUSVM requires all students to have health insurance coverage while enrolled at the University. To that end, the University offers a health insurance plan to its students, their legal spouses and dependents. Students must either be enrolled in the RUSVM sponsored medical plan or prove coverage under another plan. Our coverage year is from 8/25/22–8/26/23. The coverage year is broken into three trimesters for the purpose of billing. Students attending RUSVM clinical affiliates must learn about the health insurance requirements at their affiliate. Some affiliates require that you accept their institutional insurance. You may want to request a waiver from the RUSVM health insurance plan. Insurance is automatically billed to all students at the start of each semester.

WAIVING HEALTH INSURANCE

Students are automatically charged and enrolled in health insurance coverage once they are billed for tuition and are responsible for those insurance charges unless they provide a valid insurance waiver during the open waiver period (August-September 30th). New incoming students will be eligible to waive their entering term and then every subsequent Fall semester. Please be sure to verify your enrollment status at the start of each billing period. This coverage is also available by request for students on approved leaves of absence, vacation and temporary withdrawals. Insurance for all students will continue to be charged until the student officially graduates or is permanently withdrawn from the University. Please note that the completion of the clinical year does not constitute official graduation. Please contact the Office of the Registrar to confirm your official graduation date.
