Students should contact Housing staff if there are concerns regarding the stated condition of the room. The room will be inspected when the student departs from it, and students may be held responsible for any damages or missing items.

On-Campus Room Agreement

Terms and conditions are agreed to at the time the application for housing is completed. A copy of the agreement is available in the Housing Department and also online at:
Campus Living Apartment Agreement.pdf

It is in this service contract that the terms are detailed for both the student and university. Each student should be familiar with its contents and review a copy of it.

Room Application Procedure

Room applications for the next academic semester are made available online to new incoming students during an application period prior to the start of each new semester. When more applications are anticipated than there are rooms available, a priority system is established to determine which students will be offered rooms first. Priority is given based on application date and special circumstances. Students supplying false information on the application, whether intentional or unintentional, and on which room assignments are based, will be subject to being reassigned or having their agreements cancelled at the discretion of the Housing staff. Supplying correct lifestyle information (i.e., smoking or drinking) is particularly important. All decisions of the University as to priority for rooms shall be final.

Room Change Procedure

- Requests for room changes will not be accepted until after the first full week of classes of each semester. Before requesting a room change, students are encouraged to discuss other alternatives with their roommates (where applicable) and Housing staff.
- Residents initiate the room change process by contacting the Housing Department. Students will, at that time, receive specific instructions on how to proceed with their room change requests.
- Residents may not change rooms without first receiving permission from the Housing Department. Persons moving without permission may be subject to disciplinary action and fines, and may be required to move back to their original rooms.

Housing during Vacation Break Periods

With an incoming class of students moving into campus housing prior to the start of each semester, it is discouraged and normally not allowed for residents to stay past the announced check out date for each term. Students who have received approval to reside in a room or room for part of or all of a vacation should be aware that there is limited Housing staff available during these periods, and campus and Department services are limited. Students are encouraged to take extra precautions to protect their security. Room doors should be locked 24 hours a day, whether or not the room is occupied.
2. CAMPUS LIVING POLICIES & PROCEDURES

Room Decorating
Residents are encouraged to decorate with minimum permanent impact on the condition of the room. To hang posters, it is recommended that remountable squares, distributed by 3M, be used. There are also remountable hooks available from 3M. Residents will be responsible for any adhesive residue left on surfaces. At no time should screws, nails or similar hanging devices be used to hang or mount objects anywhere in the room or on the doors. Do not hang or mount shelves, lights, permanent type hooks, towel rods, or similar objects on any surface.

Residents’ rooms are painted by university personnel on a regular basis. Rooms are not to be painted by residents.

Room Furniture
Occupants are responsible for all the university-owned furniture in their rooms. Room furniture provided by the university may not be removed from the room. There is no storage space for this furniture elsewhere in the Campus Living Residences. Free standing lofts are not allowed to be built or used on campus. Please do not bring furniture from lounges into your room.

Room Keys – Lost Keys
The university owns each room key distributed to residents, and it is not within the privileges of residents to duplicate a room key or loan it to another person. Room keys reported lost or missing will result in the University changing the lock on the room door. Report lost keys to the Housing Department. The charge for a lost key is $50.00 USD. Every attempt will be made to change the lock and supply new keys within 24 hours upon the University receiving notification of the lost or missing key. If the lost key is found and returned after the lock has been changed, a refund of $10 USD will be made. When the lock core is changed, the new key(s) will be available for pickup at the Housing Department.

Lock Outs
If you are locked out of your room, please contact the Safety & Security Officer on-duty or the Housing Department in Tegreman 111 for immediate assistance. You will need to show identification to the Security Officer.

Residents should always carry their room keys and lock their room doors whenever leaving. Lost or stolen keys should be reported to the Housing Department immediately. Stolen keys should also be reported to Housing Department & the Safety and Security Department.

Room Repair
To repair broken or unusable articles and equipment, students will need to create a school dude work order (an account will be created for each student at the start of each semester) or contact the Housing Department if it is an emergency. The Campus Living Residences has an in-house plumber and electrician who will perform the needed repairs.

Room Use
Residents may not assign, sublet, or alter any part of the room including fixtures and fittings. In addition, the rooms or property may not be used as anything other than a dwelling for the assigned occupants (see guest policy) and not for trade or business.

Window screens are not to be removed at any time. Removal of window screens, unless it is an emergency may result in disciplinary action.

Gatherings
It is expected that all room gatherings (involving larger groups of people) will be approved by Housing staff ahead of time. The following guidelines are expected for gatherings:

a. Gatherings cannot be “open” parties for anyone, or advertised in any manner that at random invites a large number of people to a room party.

b. Invited guests cannot exceed a reasonable number that would be safe and comfortable in that room.

c. The door of the room is to be shut for the duration of the party. Any music may be at a reasonably moderate level for the duration of the party. No noise or music is permitted that disturbs neighbors in or outside of the room.

d. Residents must comply with the policies regarding possession, use, and distribution of alcoholic beverages. Acts of violence or threats of violence, verbal or physical sexual harassment, and sexual assault also are prohibited in the rooms. This includes as well any form of harassment or abuse using telephones or computer equipment. Refer to the “Code of Conduct” section of the Student Handbook for specific information on sexual assault and harassment policies and procedures of the university.

Basketball Court
Please note that the basketball court adjacent to the new Preparatory School was primarily built for the use of the Prep school children. The University asks that you refrain from using the court Monday through Friday from 7:30am to 5:00pm, so that the children are able to utilize it. Ross students are welcome to use the court anytime after 5:00pm during the week, and anytime on the weekends.

Bikes
Neither bikes nor any motorized vehicles can be stored outside on railings near walkways, or inside hallways, stairwells or public areas. Non-motorized bikes may be kept inside individual room units as a student desires. Please be mindful not to track dirt and mud onto steps and hallways floors.

Common Area Damages
We encourage residents to create a community where personal and community responsibility are upheld and respected. In our community, residents are responsible for any loss or damage to the furniture, furnishings, equipment, buildings, or grounds of the university, whether caused by the resident or that resident’s personal guests through their careless, accidental, or intentional conduct. Excessive dirtiness in hallways or floor lounges also could result in cleaning charges.
2. CAMPUS LIVING POLICIES & PROCEDURES

Common Area/Study Lounge Use
Common spaces are available for study and socializing and are open to all students in the RUSVM Community as follows:

1. Vet Prep & 1st semester students: study lounges are accessible all semester, whether or not the student resides at the Campus Living Residences
2. 2nd through 7th semester students: study lounges are accessible until week 10 of the semester.

On occasion, these areas may be reserved and used as meeting space by student groups. Students may request use of these areas by contacting the Housing Department well in advance of the needed date. Reservation of these areas is required before an announced use of these spaces can take place.

- Violations of University regulations;
- Emergency or disruptive situations (which include, but are not limited to, loud music, telephone ringing, or an alarm sounding) or situations that endanger the safety or welfare of residents.

The university’s right to search personal property in a room, building, or property on campus will be exercised with discretion. Authorized university personnel, when under the belief that a rule violation is taking place, will attempt to notify an occupant that a search of his/her property is necessary. With appropriate authority, a search may occur of a room under the following conditions:
- There must be reasonable suspicion that occupants of a specific room have in their possession articles, or are in the process of committing acts, that are in violation of federal laws or University rules or regulations.
- Authorization for a room search must be obtained from the Dean or his/her designee. Such investigation is restricted to those individuals specifically designated by the above named.

Behavior that results in the activation of a fire alarm system is prohibited and may result in disciplinary action.

Noise and Music
Please bear in mind the wide range of home environments from which we all come. Each resident’s personal habits and expectations will differ, so your tolerance of different lifestyles is essential. This can especially be true of noise levels. 3. SAFETY, SECURITY & EMERGENCY PROCEDURES

Building Hours
All buildings are locked 24/7. All students have 24-hour access to their own Campus Living buildings and their individual units. When main entrance doors are locked, residents will need to use their student ID access card to enter. Please do not allow unknown persons to follow you or “tail-gate” into the building.

Safety & Security Department Personnel
For the personal safety of students and to provide a secure environment in the rooms, there is a security presence established. Safety and Security Department personnel will be stationed on the east side of campus (Campus Living Residences area) 24 hours/ seven days/week.

If requested, all residents living in the Campus Living Residences must produce their RUSVM ID cards and present them to the Safety and Security personnel to verify occupancy in the rooms. For maximum safety and security, students must not prop open doors.

While in the Campus Living Residences, residents and guests are expected to have their IDs in their possessions at all times. Please remember that the host is responsible for the actions of the guest, including any vandalism or policy violations.

Property Loss and Insurance
Each resident is encouraged to carry personal property insurance. The university cannot assume responsibility for the destruction, theft, or loss of money, valuables, or other property belonging to, or in the custody of, the resident for any cause whatsoever, regardless of whether such losses occur from the resident’s room or public areas.

Theft
Here are some ways to protect you from theft:

- Lock your room whenever you leave it. Your door should also be locked upon retiring, whether for an afternoon nap or for the night.
- Never leave wallets, purses, loose money, checkbooks, credit cards, identification cards, keys, etc., in the open or unattended. Maintain an accurate, updated inventory of all personal belongings. Mark your belongings and record serial numbers for stereos, TVs, cameras, bicycles, VCRs, computers, CD players, and other valuables.
- Bicycles should always be locked using a U-bolt-type lock. Bicycles left in the corridors, stairwells, or lounges present a safety hazard and may be removed.
- Report suspicious people who you may encounter on your floor or hall by contacting Campus Living staff or Safety and Security personnel.
- Window screens need to remain in the designated place at all times.
- When moving into or out of the Campus Living Residences, don’t leave personal or university property unattended in your room or the hallway, as such, property is at such times particularly vulnerable to theft.
- Don’t leave clothes unattended in the laundry rooms.
- Books, backpacks, and other personal items should not be left unattended in any public areas.

Additional Tips for on and off campus:
1. Please do not take large amounts of money on your person when you are away from home. Only take the amounts that you require to spend on any trip away from home.
2. Do not leave large sums of money in your homes. Remember the ATM is accessible, both on campus and in town.
3. Please use your deadbolt locks at your residence. They are there for a purpose.
4. Do not leave keys or small items at your residence in positions/locations where they can be fished from your windows.
5. When parking your vehicles at nights, make sure that you do not leave anything in the vehicle. Some vehicles trunks can be opened from the inside of the vehicle. Don’t leave anything in the trunks.
6. In the case of being out shopping at malls or elsewhere, make sure that nothing is left in your vehicles that are visible to persons passing.
3. SAFETY, SECURITY & EMERGENCY PROCEDURES

7. Get a photo copy of your Insurance papers and your vehicle registration. Keep the photo copy in your vehicle pocket in case you are stopped and it is requested by the police. Keep the originals at home.

8. If you are requested to stop by an unmarked vehicle while in dark or deserted areas, please drive until you reach a lighted area or an area where there are other people. Just drive slowly and not necessarily in an evasive manner.

9. If involved in incidents, please contact our Safety and Security emergency number 465-6161 immediately. This number is a 24 X 7 number. You do not pose a bother when contacting them. RUSVM is always here to assist you.

If a theft should occur, immediately contact Campus Living staff and Safety and Security.

ROOM SAFETY AND EMERGENCY PROCEDURES

Responsibility for Personal Safety
While Ross University can assume no responsibility for risks associated with participation in programs or activities, the university attempts to provide a safe environment for its students. It is rare when residents have been injured while participating in program-related activities, yet none of us are immune to injury in the course of our daily lives, work, play, or field of study. Residents should conduct themselves with due and reasonable care in their actions. Resident status creates no special relationship between the resident and the university, and the university is not a custodian of the safety of residents.

Blood-Borne Pathogens
All residents should be aware of the threat of disease caused by pathogenic micro-organisms present in human blood and bodily fluids. These pathogens include, but are not limited to, hepatitis B virus (HBV) and human immunodeficiency virus (HIV). Blood-soaked materials, needles, bodily fluids and contaminated surfaces are examples of possible contamination. Residents are strongly cautioned to remove themselves from potential exposure, and should contact Housing staff or Safety and Security personnel and wait for a medical professional or university employee with proper protection to clean up such items or areas. Residents who regularly use prescribed medication by injection should acquire and use a container for proper disposal of needles. Contact Student Health Services on campus for containers or for any questions you may have with this.

Fire Hazards and Prevention
Many factors contribute to fires starting in rooms and in buildings. Residents should be familiar with them and correct hazardous situations.

Hazards in Students’ Rooms:
Decorations. Fish nets, parachutes, sheets, and other flammable items may not be hung loosely where they could spread fire. Do not hang items from the ceiling or cover light bulbs and fixtures.

Electrical Abuse. Use of an electrical “octopus” to obtain a maximum number of outlets can result in the overload of circuits and fire. Extension cords are a major factor in room fires, therefore they are not allowed in the rooms. It is required that students use UL-approved power strips, with their own fuses or circuit breakers. It will help protect sensitive electronic equipment from damage due to power outages or surges which can be common on the island. It is suggested that students bring these with them (6 ft. or longer is recommended). Halogen lamps are also forbidden due to their risk of starting fires.

Appliances. Popcorn poppers, coffee makers, George Foreman grills, etc., must be attended. They should be unplugged after use and not stored until they are cool enough to touch. Appliances may overload the circuits and must be used with extreme caution.

Open Flames. Burning candles, open flames, and open flame devices are not permitted in the rooms or public areas.

Flammable Liquids. Gasoline, ether, paint, glue, etc., must not be stored in Campus Living buildings.

Obstacles. Storage of bicycles, chairs, desks and other items in exit ways, hallways, and public areas is prohibited.
3. SAFETY, SECURITY & EMERGENCY PROCEDURES

Holiday Decorating Policy
Our Campus Living Residences communities need to have some levels of precautions taken to safeguard them against fire hazards, and consequently, personal harm. The following policies related to decorating outline minimum standards. The Housing Department may implement other standards.

1. Fire alarm pull stations, fire extinguisher cabinets, smoke detectors, fire sprinkler system equipment, exit signs and windows in the exit door must not be covered. Exit doors cannot be blocked.

2. No painting is allowed directly on the walls, floors, or ceilings.

3. Decorative lights must be low wattage.

4. Other flammable objects, such as leaves or branches, are prohibited.

Room Smoke Detectors
A smoke detector has been installed in each room. These detectors are designed to detect heavy smoke, which is indicative of fire. These smoke detectors are not connected to the general hall alarm system and the general alarm for the building will not sound unless the smoke travels outside of the individual room to the hallway. If a fire occurs, the pull station in the hallway must be pulled down to activate the alarm system and to initiate evacuation.

Once the room smoke detector is activated, it cannot be silenced until the air in the room is cleared. The horn on the detector can normally be silenced by opening the room window. The room smoke detector is powered electrically and has a back-up battery in case of power failure. Under no circumstances may this detector be modified, covered, or tampered with.

If there is smoke in your room, do not prop your door open, as this may cause the fire alarm to sound throughout the building.
4. IMPORTANT TELEPHONE NUMBERS

Campus extension numbers are four digits and may be dialed direct on campus. To call on-campus from off-campus, dial 465-4161 and the extension number.
